5/24/69

Dear Mr. Joy,

Thanks for your letter of 5/21.

There is nothing kosher about any of the official accounts of the rifle.

One thing I'll be using in the book AGENT OSWALD that Bernabei has confirmed for me is that the clip is autometically ejected after the last shot is cahmbered. This rfile was found with the shot in the breech, the clip in place, and everyone accepted it.

It can be explained only one way: magic.

Unless, of course, you consider the possibility that many people are dishonest. Think that is at all possible?

Sincerely,

Harold Weisberg
